

'Micro-set' Retro-fit

Skeltonhall Systems can manufacture special '**Micro-set**' sphere detectors to suit your application.

Given detailed dimensional information regarding your existing sphere detector boss Skeltonhall Systems design a **Retro-fit** adaptor to suit. The '**Micro-set**' design is then tailored to suit the **Retro-fit** adaptor and the existing detector boss.

The drawing and photo below show a **Retro-fit 'Micro-set'**, the period from receipt of purchase order and detailed information to despatch from Skeltonhall Systems was 5 working weeks.
